

Referral Programme

Recommend us to earn money automatically – it's that easy

1. Recommend StayGB

Distribute your personalised referral link to your friends, send by email or share on your social media. Use our hashtag #stayGB .

2. Wait for a sale

Not that patient? Increase your chances by sharing as much as possible.

3. Earn money

You will automatically receive your commission once the sale of the recommended product or service has been completed or in the case of a holiday booking within 30 days of departure.

How do the links work?

When you receive a product or service eligible for our referral scheme you will receive your personalised referral link. The link will look like...

<https://staygb.com/~123>

Where 123 is your personalised referral code.

This link will redirect the potential purchaser to the related product. Should a purchase be made from this device within 60 days then you will earn commission. During the checkout process the purchaser will be notified that a referral commission has been applied.

What's the point? I'm not likely to earn anything

"My friends have all had their annual holidays so there is no point in sharing the link."

You can still earn by posting the link on social media. Remember, you can earn from purchases made by individuals that you have not referred directly! For example, say you post a photo with your referral link on Twitter. The tweet is retweeted many times over the next few days. One of these users, whom you have no knowledge of, visits stayGB website via your link and makes a holiday booking 35 days later. Result: you earn commission! Of course
